

SPENSER 2020

US HOUSE OF REPRESENTATIVES

YOUR VOICE IN CONGRESS

Politics is about people, and it is time for a new kind of politics in America, a **positive politics** that lets your voice be heard.

I am bringing the voices of our community together every Thursday at noon for our Virtual Town Hall using the Zoom link at www.SPENSER2020.com

I stand for people, for **autonomy**, for each person to live a life that reflects their values and their loves.

*Comprehensive **Healthcare** that benefits everyone from head to toe.

***Pharmaceutical** policy allowing everyone the medicine they need, while providing care that prevents addiction - supporting those who have become addicted.

*Common Sense **gun responsibility** - securing everyone's rights, while securing everyone's safety. Expanding DMV licensure to include gun handling, and inviting the NRA and others to provide realistic gun safety and care classes that will prepare gun owners for licensure.

*Effective, realistic, and humane **migration policies** that support our changing and aging community.

***Tuition assistance** for everyone who wants to go to college.

***Student loan** forgiveness.

***Campaign Finance reform** that ensures anyone who wants to serve the people has equal opportunity to run for office.

*Continue to create more **jobs** through **alternative infrastructure**, by harnessing the energy of the sun, water and wind; while remaining open to technologies that can heal the planet.

*An **embracive water policy** that secures clean, cold, and healthy water to sustain and restore our fish population. This security will, in turn, ensure there is enough water to irrigate our farms and provide safe and abundant drinking water for our families. When our fish and farms are healthy, our families will be healthy.

***Forestry** practice that utilizes common sense conservation techniques and stewardship contractors to reduce the hazard of fire, and allows the forests to return to equilibrium.

*Renew and create **infrastructure that connects us**, from bridges and broadband, to high-speed rail and air travel.

I embrace the opportunity to serve everyone in Oregon's Congressional District 2 **Homemakers** and **Teachers**, **Farmers** to those who harness the **wind**. I will be the voice of **Mothers** and **Fathers**, **Ranchers** and **Republicans**.

We deserve a US House of Representatives that represents the best interests of everyone.

I will be YOUR voice in Congress.

Virtual Town Hall Every Thursday at noon with Zoom!
